

# Earned Value Management (EVM) Consulting Services

A service offering from Management Solutions, LLC

Greater visibility and understanding of project performance maximizes the likelihood of project success. Increasingly, EVM is a required tool for governmental and commercial projects alike and we help our clients achieve the level of **compliance** that works best for their environments.

## EVM System Design & Implementation Support

Build, integrate, and implement EVM systems from the ground up

Develop guidance documents including system descriptions, project management and controls procedures, and desktop guides

Create customized EVM/Project Management reporting based on unique needs

## EV Compliance Review & Gap Analysis

Perform gap analysis to determine what is needed to achieve compliance/certification

Produce and implement plan to address gaps and bring system into compliance

Perform compliance audits based on applicable requirements and guidelines such as EIA748, new EVMSIH, DOD FARs & DFARs, and new EVMSIG

## EVM Consulting & Training Support

EVM system, general, and role-based training

Audit preparation interviews for key roles

Quantitative audit assessments and corrective action reports

management  
solutions

Bridging the gap between strategy and execution
